Dear Senator Bateman,

The Raritan Valley Group of the Sierra Club would like to thank you for your consistent courageous position on protecting the environment, particularly your support of the Regional Greenhouse Gas Initiative.

We are proud that you uphold the tradition of past Republicans representing Somerset County including your father, Millicent Fenwick and Bob Franks, who supported environmentally friendly initiatives. Your leadership contributes to making Somerset County one of the most desirable communities in the country.

Our clean environment improves property values and attracts a knowledgeable citizen base that will in turn support forward thinking legislators such as you.

You can count on our continued support,

For the Executive Committee of the Raritan Valley Group of the Sierra Club
